

JATIA CHEMICALS

1 Auckland Place,
Motijug House - 5th Floor,
Kolkata - 700 017

ONLY DCP MANUFACTURER IN EASTERN INDIA MCP MANUFACTURING SCHEDULED TO BEGIN BY 2024

We are a quality driven greenfield company committed to providing chemicals to various industries. Owing to our strong Research and Development coupled with our commitment to Customer Satisfaction, we have been able to carve a niche for ourselves in production of Chemical Intermediaries in India as well as South East Asia.

CALPHORUS (DCP)

HIGH DIGESTIBILITY

The low Ash content in CALPHORUS due to its patented technology ensure highest Assimilation of Phosphorus

HIGH BIOAVAILABILITY

Low Ash Content DCP ensures that the maximum possible Phosphorus in CALPHORUS is available for the animals

HIGHLY COST EFFECTIVE

Lowest Delivered Price per Ton of Bio-Available Phosphorus in Eastern India

REDUCED SUSCEPTIBILITY TO DISEASES

Inorganic Feed Phosphate ensures safety of the animals and poses no risk of Bird Flu or Mad Cow Disease which can occur due to consumption of Organic Phosphates

ENHANCED SKELETAL GROWTH

Presence of essential nutrients ensure adequate bone health and sustained growth

SPECIFICATIONS

DCP is a source of highly available Phosphorus and Calcium making it an essential dietary supplement which helps meet dairy, poultry and aqua feed's nutrient requirements.
